Guard	Clock	Coal	

Nene Valley Railway is home to a little blue engine named 'Thomas' by the Rev. W. Awdry author of the famous books about Thomas and Friends.

The 0-6-0T engine No. 1800 was built by Hudswell Clarke in 1947 at about the time when Rev.W Awdry wrote his second book in which Thomas appeared. The little blue engine spent its entire working life at the British Sugar Corporation Peterborough factory pushing wagons of sugar beet up an incline until the day came when a diesel engine replaced the steam power of Thomas.
